

CARVING & MOLDING MIX

CEMENTICIOUS OVERLAY

CARVING & MOLDING MIX IS A SPECIAL CEMENTITIOUS BLEND OF AGGREGATE AND FIBERS TO CREATE A ROCK HARD, WEATHERPROOF COATING AND MOLDING PRODUCT THAT RECEIVES TEXTURE AND DETAIL IMMEDIATELY.

PRODUCT HIGHLIGHTS

- One component mix.
- No extra additives.
- Replicates stamps and molds with well defined image.
- Rock hard surface that resists water penetration for long lasting beauty.
- Stains fast and easy. Although the surface is rock hard it will take acid, water, and color dye stains with ease.
- Properly sealed this is a low maintenance surface. Interior surface may be polished with EZGlow acrylic polish.

USES

CARVING & MOLDING MIX is used for creating precast molds that can be removed from its mold immediately and retain its shape and detail immediately. It is a perfect blend to achieve a texture and detail coat for faux Bois furniture and garden structures.

CARVING & SCULPTING MIX

HOW TO USE:

Press mold mix into mold that has been lightly coated with Ultra Pure Release. It may be immediately taken out of its mold and air dried 12-24 hours.

Drying time varies depending on depth of mold and relative humidity.

For textures apply a 1/4 to 3 inch thick coat to wire mesh armature and create texture and shape. Sculpting time can be up to 4 hours or more depending on humidity and temperature.

PRECAUTIONARY STATEMENT:

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing dust/fume/gas/mist/vapours/spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection.
