

EZ-GLO INDUSTRIAL

HOW TO USE:

Remove old polish or wax thoroughly using CitraPro. Thoroughly rinse floor and allow to dry completely. Spread EZ-Glo evenly over entire floor with a Lambs Wool Applicator, or clean yarn mop. Allow to dry completely, usually 25-30 minutes. Always apply EZ-Glo in thin coats. Allow to dry 24 hours before heavy traffic.

Maintenance: Occasional damp mopping with a neutral detergent, such as EZ-Clean, will maintain the smooth glossy surface.

Heavy Traffic Areas: Clean with a neutral detergent, such as EZ Clean. Rinse and damp mop. Let floor dry thoroughly. Apply 1 thin coat of EZ-Glo.

Stripping: CitraPro will easily strip EZ-Glo. As many as 10 coats of EZ-Glo may be applied without the need for stripping. EZ-Glo will not yellow.

Note: *A test area is recommended for all applications.*

PRECAUTIONARY STATEMENT:

Wash hands after handling. Do not eat, drink, or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection. Take off contaminated clothing and wash before reuse. Dispose of contents/container according to local, state and federal regulations.
