

EZ-GRIP

HOW TO USE:

Add EZ GRIP to the sealer, one bag to 5 gallons of sealer and stir in thoroughly to a uniform consistency. The mixture may be sprayed, rolled or brushed over the surface. Always stir the mixture occasionally during application. When the treated layer is dry, over coat it with a clear sealer coat. This locks in the additive and gives long wearing characteristics.

Note: A test area is recommended for all applications.

PRECAUTIONARY STATEMENT:

EZ-Grip is an insoluble, inert polymer material. It is non-toxic. Do not take internally and avoid eye contact. Dispose of contents/container according to local, state and federal regulations.

FIRST AID:

EYES: Flush thoroughly with water for 15 minutes, lifting both eyelids. If irritation persists, Get Medical Help.

IF SWALLOWED: Drink two glasses of water and Get Immediate Medical Help.

ON SKIN: Wash off with soap and water.

IN CASE OF FIRE:

This product is not flammable.
