

SPRAY MIX

SURFACE PREPERATION:

The surface must be clean and free of any dirt or debris and properly prepared according to the Technical Data Sheet for Spray Mix. Just prior to applying Spray Mix the substrate must be primed with Bond It primer. Do not allow Bond It primer to dry completely. Spray Mix must be applied over wet Bond It.

HOW TO USE:

Spray mix is typically applied to a damp surface. Remove any puddles and standing water (Saturated surface dry) prior to installation.

Add 50 lb bag of spray mix to approximately 5.5 quarts (minimum 4.5 maximum 6.5) of water.

Mix in a clean 5 gallon pail with a ½" mixer drill (Do not use a cement mixer)

Add EZChem EZ COLOR PAK (blend the Color Pak into the water first) if integral color is desired.

Add half the powdered material to the water, mix until lump free, let sit for 5 minutes, then blend in the other half.

Apply with a hopper gun, magic trowel (squeegee), steel pool trowel, brush, broom or roller

For a knockdown texture use 8-15 PSI through a relatively large orifice. As the wet, glossy material begins to dry to a matte or dull finish, it should be knocked down with a pool trowel or metal squeegee

For a bubble texture use 40 Psi through a relatively small orifice.

PRECAUTIONARY STATEMENT:

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing dust/fume/gas/mist/vapours/spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection. Take off contaminated clothing and wash before reuse. Store in a well-ventilated place. Keep container tightly closed. Store locked up. Dispose of contents/container to approved waste disposal site.

FIRST AID:

INHALATION: Move to fresh air to avoid nuisance symptoms.

SKIN CONTACT: Wash affected area thoroughly with soap and water. Rinse well. If irritation develops Get Medical Help.

EYE CONTACT: Rinse thoroughly with water for 15 minutes, lifting both eyelids. If irritation persists, Get Medical Help.

INGESTION: Rinse mouth with water. Drink 2 glasses of water to dilute. Do not induce vomiting. Get Immediate Medical Help. Never give anything by mouth to an unconscious person.

IN CASE OF FIRE:

This product is not flammable.
