

CLEAR COAT VOC GLOSS FINISH

25% CLEAR ACRYLIC SEALER

CLEAR COAT VOC IS A SOLVENT BASED, PURE ACRYLIC COATING THAT FORMS A TOUGH CRYSTAL CLEAR COATING THAT SEALS, BEAUTIFIES, AND PROTECTS ALL CONCRETE SURFACES. IT IS COLORLESS, AND NEVER YELLOWES.

PRODUCT HIGHLIGHTS

- **Clear and Colorless:** Clear Coat VOC goes on water white and never yellows.
- **Environmental:** Clear Coat VOC contains no chlorinated solvents or other ozone depleting solvents, and it is VOC compliant in NJ, NY and other Northeast US states.
- **Seals and Beautifies:** Clear Coat VOC penetrates into the pores of the concrete and seals out dirt and stains as it seals in the beauty.
- **Dries to a smooth, tough, glossy finish:** Clear Coat VOC flows and levels to prevent brush strokes or roller marks, and dries smooth and glossy.
- **Dries quickly:** The active solvent system in Clear Coat VOC evaporates quickly and completely leaving only the acrylic polymer. Once dry, all flammable solvent is gone and the area is safe and ready to use.
- **Accepts water based polish:** For use indoors, the finished coating can be over coated with a water based polish, such as EZ-Glo, to act as a renewable wear surface.
- **Available in 1 gallon and 5 gallon.**

PERFECT FOR

- Sidewalks
- Patios
- Driveways

Clear Coat VOC is applied by brush, roller or sprayer onto cured, dry and clean concrete. Applied over concrete stains, Clear Coat VOC seals, enhances, and locks in the color to produce a permanent and beautiful stained floor. Once dry, a second coat may be applied to enhance the floor.

QUICK LOOK:

Type: VOC compliant solvent based pure acrylic coating
Toxicity: Harmful if swallowed. Avoid breathing vapors.
VOC's: Less than 400
Flammability: Flammable
Composition: Pure high molecular weight acrylic polymers in VOC compliant solvent base.
Color: Colorless and clear
Odor: Solvent
Coverage: 250-350 sq.ft.
**Coverage rates may vary depending on porosity, texture, application method and prior sealer application. Excess buildup should be avoided.*

FOR MORE INFORMATION,
PLEASE SEE SDS.

Note: Low VOC solvent based sealers dry faster than traditional solvent based sealers.
